Chess Players Are Always Winners!

There were 9 students in a coed chess club. 65 games of chess were played. The coach/sponsor won 9 games. Each male student won 6 games and each female student won 8 games. How many male students and how many female students were in the chess club?

Make sure you include the answer and an explanation as to how you determined the correct response. Include any formulas that were used to help solve the problem. Good Luck and enjoy the challenge! Did you know that Halley’s Comet will return in 2061? The last time it appeared for us to see was in 1986!
