

# **The IMSA Great Minds Program®**

**March 29, 2007 2:15 PM - 3:15 PM**

**Pearson Lecture Hall**

**Dr. Samuel I. Stupp**

**Director of Northwestern's Institute for BioNanotechnology in Medicine**

## **“Self-Assembly for Medicine and Energy”**

Dr. Stupp presented his research in supramolecular self-assembly, electronic and photonic properties of organic materials, biomaterials for regenerative medicine, and supramolecular nanostructures for targeting of chemotherapy.
