

Room Arrangements

Furniture Arrangement

- One side of all furniture including long side of the bed and wardrobe must be against a wall
 - Desks may have either the longside or shortside fully against a wall
- Beds may be bunked or unbunked
- The door must be able to completely open without interference
- A direct path is open from the doorway to the windows
- No furniture may be placed in a way that it blocks a window
- Clear visibility of the entire room must be accomplished by standing at the door.

Walls

- You may only hang things on your walls with the following adhesives: painter's tape, poster putty, or push pins
- PLEASE DO NOT use scotch tape, duct tape, command strips, nails, or any other adhesive that is not one of the three approved adhesives listed in the bullet point above

PTAC (heating/cooling) Unit Guidelines

- There must be one foot of space around the PTAC unit
- Nothing may be placed on top of your PTAC unit

Room Phone

- Your room phone must be accessible and always plugged in

Below are recommendations for how to arrange your room while following the above guidelines:
