2. Participate in polished performances.
3. Respect and understand the ensemble process of working together for a common goal.

## **INSTRUCTIONAL DESIGN AND APPROACH**

The focus of this class will be to develop an understanding of the individual music fundamentals necessary to compose a team or ensemble. Specific fundamentals include: music notation, tone production, intonation, ear training, clarity of instrumental diction, dynamic necessities, blend, balance, interpretation and analytical preparation of a piece.

These fundamentals, crucial to ensemble performance, will be practiced during the warm-up period, throughout the rehearsals and the concerts. Emphasis will be placed on the development of individual playing skill as it relates to solo and ensemble work. Only through personal skill development can large group improvement occur.

Understanding the music fundamentals that comprise a piece, results in an enhanced performance product and the development of both cognitive analytical and motor skills. Therefore, written analysis will also take place, via journaling and potential portfolio development. In addition, the mind set of a composer will be explored through hands-on activities, compositional experimentation and an examination of the interconnections between culture, history and music.

1. Students will explore composer mindsets and may experiment with the development of music through composition, both individually and as a collaborative team.
2. Students will attend peer performances and they will be asked to reflect upon those performances. If time permits, students may be asked to attend an additional music performance and then may be asked to use the language of music, to write both a synopsis and review of that performance.
3. Students may be asked to provide journal entries on their personal practice room and performance experiences at various times throughout the semester.
4. Students will participate in sophisticated, polished solo and ensemble performances, which will result in an aesthetic, personalized experience.
5. Students may be asked to create a music portfolio/notebook, which contains class materials both disseminated and generated. This portfolio will engage the students in the problem-based learning and reflective self-assessment processes.

## STUDENT EXPECTATIONS

### *Excused Absence:*

An excused absence is a class that a student has missed, which the attendance office has excused. Students are permitted and expected to make up the class work missed.

### *Unexcused Absence:*

An unexcused absence is a class that a student has missed without prior arrangements being made or without being excused by the attendance office. Any work missed due to an unexcused absence *may not* be made up. *ALSO, work not turned in by the due date will not be accepted if it is more than one day late. Late work will automatically receive a letter grade one full grade lower than the original grade.* Therefore, unless there is a serious, documented illness, work must be turned in on the due date.

### *Tardy:*

A tardy will be given if a student is late to class.

**Scheduled rehearsals and performances** are considered part of the **academic requirements** for this class. An *unexcused absence* from a *rehearsal* will result in your *grade being lowered*. **MOST ABSENCES ARE CONSIDERED UNEXCUSED ABSENCES. ALL PERFORMANCES** are comparable to a final test. Music Tests are reflective of cognitive, skill-based achievement, cooperative teamwork and personal effort. An *unexcused absence* from **any performance** may result in **failure** of this course, and **will result in failure** for that portion of your grade. The Fine Arts Team determines excused absences on a case by case basis. *An excused absence from a performance will require makeup work*, including but not limited to, a music research paper complete with documentation. Because there is no way to duplicate all of the aspects of a performance, the highest attainable grade on that makeup work will be a B. **No makeup work will be accepted for an unexcused absence.** In addition, excuses from performances must be **submitted in writing** and are *subject to verification*.

**IMSA's Instrumental Performing Ensembles** continue to fulfill the IMSA Mission Statement and Standards of Significant Learning, as they help to develop student cognitive and motor skills, and student musical knowledge of culture, and even of the interconnections of that culture to the humanities, math and science. These interconnections result in an increased student awareness of the integrated world around them, and potentially ignite interest for future lifelong learning experiences.
