Parent Observers in Canvas

Parents can sign up as a Parent Observer in Canvas. Parent Observers can link their Canvas account to their student's account so they can see assignment due dates, announcements, their student's grades, and other limited course content. Student Generating a Pairing Link to Provide Access to Parent

As a student, you can generate a pairing code to link a Parent Observer to your Canvas account. You must create a separate pairing code for each Parent Observer who wants to link to your account. For more information on pairing codes, view the Pairing Codes - Frequently Asked Questions PDF.

A Parent Observer may be your parent, guardian, mentor, counselor, or another individual who needs to view your Canvas courses. Linked observers can view and participate in certain elements of your Canvas courses. For more information on the Parent Observer role, view the Observer Visibility and Participation PDF.

Instructions for Students to Generate Pairing Code:

1. On the Global Navigation menu, click the Account link [1], then click on the Settings link [2].
2. Click on the “Pair with Observer” option located on the far-right side of the page.

3. Once you click on the “Pair with Observer” button, you will see:

   **Pair with Observer**

   Share the following pairing code with an observer to allow them to connect with you. This code will expire in seven days, or after one use.
