

Nov 2022 ver.

Addendum to the Scientific Inquiry and Research (SIR) Student Handbook ADDENDUM 1

Guidelines - | Academic Year 2022-2023

- 1. There will be two "on-campus" SIR courses at IMSA.
 - a. Drug Discovery course run by Dr. John Thurmond
 - b. Particle Physics course run by Dr. Peter Dong
- 2. Faculty and staff can mentor students on independent (self-arranged) projects, the topic of which may or may not be related to both previously run on and off-campus SIR courses.
- 3. Faculty and staff will not get any release time for mentoring student SIRs.
- 4. It is advised that each individual mentor not take on more than 5 students, due to the amount of work involved, but this is just a guideline and it is up to each individual mentor as to how many students they wish to mentor.
- 5. ALL COMMUNICATION WITH OFF CAMPUS MENTORS NEEDS TO GO THROUGH THE SIR OFFICE.
- 6. Off- campus SIR emails need to be cleared through the SIR office before students begin work.
- 7. All SIRs need to adhere to safety guidelines set forth by the hosting campus and mentors will need to confirm placements prior. If the hosting site or IMSA no longer allows students to work off-campus due to the health and safety risks from a virus outbreak, remote-based work will need to be implemented.

Please understand that in the interests of safety and equity, if there is a need for IMSA to be shut down due to a virus outbreak, the following will go into effect.

- SIR visits off-site will be suspended until such time as deemed by the state and academy to be safe to return to normal.
- No SIR credit will be issued to students who go off campus by any means (bus, train, personal vehicle etc.) during this time.
- 8. Whether on-campus or off-campus, all SIR projects need to be meaningful (see definition below), with a demonstrable deliverable, and need to include the components of a written scientific paper, culminating in a presentation of the final project at IMSAloquium.
- 9. "Meaningful" with respect to SIR projects is defined as a project that includes, but is not limited to reviewing literature, working on applying the knowledge gained to creating a new and innovative product, theory, proposal or hypothesis and furthering the scientific method through focused work culminating in a presentation at IMSAloquium. Reading a few scientific papers for an off-campus advisor will not constitute an SIR project. Upholding and executing the scientific method is what distinguishes an SIR project from an independent study. If lab work and collecting data is not be possible, meaningful work could constitute analyzing data that has been collected by others in the lab.
- 10.All efforts will be made to place students in SIRs, either on or off campus, in an equitable manner any student wishing to do an SIR will be able to do so. All students will have equal representation in choosing an SIR project. Every student will have a fair chance of the SIR project of their choice.

The SIR Team

Dr. Sowmya Anjur

Dr. Mark Carlson

Ms. Cathleen Cunz

Dr. Peter Dong

Dr Brian Trainor

Principal and Chief Academic Officer

Dr. Comfort Akwaji-Anderson

ADDENDUM 2

Dates for SIR on I days AY 2022-2023

SIR FY23 (AY2022-23) Inquiry day schedule

| Week | <u>2022</u> | <u>Week</u> | <u>2023</u> |
|------|-------------------|-------------|-------------|
| 1 | 9/14/22 | | |
| 2 | 9/21/22 | | |
| 3 | 9/28/22 | 14 | 1/25/23 |
| 4 | 10/5/22 | 15 | 2/1/23 |
| 5 | 10/12/22 | 16 | 2/8/23 |
| 6 | 10/19/22 | 17 | 2/15/22 |
| 7 | 10/26/22 | 18 | 2/22/23 |
| 8 | 11/2/22 | 19 | 3/1/23 |
| 9 | 11/9/22 cancelled | 20 | 3/8/23 |
| 10 | 11/16/22 | 21 | 3/21/23 |
| 11 | 11/30/22 | 22 | 3/29/23 |
| 12 | 12/7/22 | 23 | 4/5/23 |
| 13 | 12/14/22 | Practice | 4/12/23 |
| | | IMSAloquium | 4/19/23 |

ADDENDUM 3 SIR Deadlines

Deadlines for AY2022-2023 SIR

Start Date for SIR

The official start date this year is Wednesday, Sept. 14. If mentors wish to start earlier, that is fine, please notify the SIR office.

Deadline to officially enroll in SIR for AY 2022-2023

The SIR office can accommodate students interested in signing up for SIR projects until Oct. 12, 2022.

Schedule of Assignments to be submitted

SIR Agreement form

This form should be signed by student and parent no later than Sept. 14, 2022 (or prior to the actual start date) and submitted on the SIR AY2022-23 Canvas classroom.

SIR Proposal

SIR proposals will be accepted on a rolling basis until November 30, 2022. An SIR Proposal (no more than 1 or 2 paragraphs) should be submitted for new projects. If you already have an SIR project recognized by this office, you should submit a 2-3 sentence project update in lieu of the proposal.

Annotated bibliography

Students enrolled in an SIR project need to submit an annotated bibliography by November 30, 2022. If you are working on a new SIR project this year, please submit an annotated bibliography with a minimum of 5-6 references. If you are working on the same project as last year, you should add 3-4 references to your existing bibliography and submit your revised document.

SIR Introduction

SIR Introductions with citations in text and a bibliography will be due on Dec. 14, 2022. If you are continuing your project, please add a few sentences updating your project, including 1 or 2 new references and resubmit your introduction.

Progress report

A progress report of about one paragraph is due to this office by Jan 25, 2023. The progress report will include an update on your project and the direction of your future work.

Abstract

An abstract of your work should be submitted by March 21, 2023. The abstract should not exceed 200 words.

Posters

Posters approved by mentors need to be submitted on canvas before April 5, 2023. No exceptions!

Presentations

The SIR office would like student presentations to be completed and submitted by April 12, 2023.

IMSAloquium Practice Day

Practice Day for IMSAloquium is on April 12, 2023.

IMSAloquium

This year, IMSAloquium will be held on April 19, 2023.

Final paper

A copy of your final paper should be submitted no later than May 16, 2023.

Calendar Reference List

| <u>Item</u> | <u>Due Date</u> |
|-----------------|--|
| Start Date | September 14 |
| Agreement Form | September 14 (or prior to actual start date) |
| Lab-Safety Form | September 14 (or on the actual start date) |

Deadline to official enroll October 12

| Annotated Bibliography | November 30 |
|------------------------|-------------|
| Proposal | November 30 |
| Introduction | December 14 |
| Progress Report | January 25 |

Abstract March 21

| Mentor approved Poster | April 5 |
|----------------------------|----------|
| Presentation, practice day | April 12 |
| IMSAloquium | April 19 |

Final Paper May 16
