

= BATTLE = ROBOTS

**Build Robots
Learn Engineering
& Have Fun!**

RoboThink is coming to IMSA this summer!

In this fun summer camp week at IMSA, students will explore and get hands-on with the fascinating world of robotics! No previous experience necessary! We will be using the RoboThink robotics kits, motors, gears and mainboards to build cool moving battling robots! As your child is having fun battling friends and making cool modifications to robots, they will also be learning about electronics, sensors, motors, robot engineering design and problem solving skills.

Registration spots are limited and fill up quick, so sign up fast!

- **July 10-July 14, 2023 Monday - Friday**
- **9:00AM to 12PM**
- **\$219**
