The Council will be allowed time to meet up to one (1) hour during one of the first non-student attendance day(s) of the school year. The Council will be afforded the opportunity for Union meetings scheduled immediately after Faculty Meetings.

ARTICLE III

EMPLOYEE RIGHTS

3.1 Personnel File Review

- A. The official personnel file for each employee shall be kept in the Human Resources Office. Temporary reference files for each employee may be kept in the offices of the supervisors.

3.2 Discipline & Discharge Dismissal

- A. The Board agrees with the theory of corrective discipline. Discipline of an employee covered by this Agreement will include the following:
 - 1. A conference with the employee by the appropriate administrator on the decision;
 - 2. In the event of a suspension or dismissal, a written statement of the reason(s) for the action shall be given to the employee and a review of the employee's personnel file with the employee and a representative if the employee so chooses;
 - 3. The Academy reserves the right to combine or skip steps depending on the facts of each situation and the nature of the behavior or performance issue. The level of disciplinary intervention may also vary. Factors that will be considered include, but are not limited to, whether the offense is repeated despite coaching, counseling or training, the employee's work performance, and the impact the conduct and performance issues have on the organization

Discipline may take the following steps:

1. Verbal Warning; Counseling: This is the opportunity to raise awareness that there is a problem that needs to be corrected. The employee's supervisor will discuss the area of concern with the employee and outline a program of improvement or corrective action. The supervisor is expected to clearly describe expectations and steps the employee must take to improve performance or resolve the problem. Within five (5) business days of this conversation, the supervisor shall document the verbal counseling in a memo. The employee will be asked to sign this memo to confirm understanding of the concerns and the necessary corrections. The supervisor shall retain the original and a copy shall be given to the employee.

2 Written Warning; Reprimand: The Academy hopes that issues raised in step one will be promptly corrected. However, in the event that does not occur, this step is more formal documentation of problem behavior and/or performance issues. The employee's supervisor will identify prior, related, verbal warnings/counselings, if any, and address the areas of concern in writing, identifying the employee's failure to comply with any prior required corrective action. This formal, written warning shall include a) the corrective action and sustained performance and/or behavior improvements that must be made; and b) notice that the employee may be subject to additional discipline up to and including termination if immediate and sustained corrective action is not taken. The employee will be asked to sign this written warning to confirm understanding of the concerns. The supervisor shall provide a copy of the written warning to the employee, retain a copy and forward the original to Human Resources for retention in the employee's personnel file.

3 Unpaid Suspension: There may be performance, conduct or safety incidents so persistent and problematic, or so egregious, that the most effective action may be the temporary removal of the employee from the workplace. Supervisors may recommend an unpaid suspension as a disciplinary tool but such suspensions require the written approval of the President or President's designee. The employee may be suspended without pay in full-day increments consistent with federal, state and local wage-and-hour employment laws. Non-exempt employees may not substitute or use an accrued paid vacation or sick day in lieu of the unpaid suspension. Due to Fair Labor Standards Act (FLSA) compliance issues, unpaid suspension of exempt employees is reserved for the most egregious workplace safety or conduct issues. HR will provide guidance so that the discipline is administered without jeopardizing the FLSA exemption status.

4 Final Written Warning: If an employee fails to respond to prior efforts to correct performance and/or behavior, the Academy may place the employee on a "Final Written Warning" for a period from one to three months (the "Final Warning Period"). This is, in effect, the final, written warning prior to termination. The supervisor shall document the behavior and/or performance problems and required corrective actions and performance expectations in the "Final Written Warning", which shall be signed by the employee and the President or President's designee. Employees who fail to substantially comply with the terms of the Final Written Warning normally will be terminated at the end of the Final Warning Period. However, if the Academy determines that the employee is not substantially adhering to the terms and conditions of the Final Written Warning, the employee may be terminated immediately.

5 Involuntary Termination: In the event that the Academy determines that an acceptable resolution to the employee's performance problems cannot be achieved, or if events warrant it (e.g. misconduct or continued poor performance), the Academy may terminate the individual's employment. Furthermore, employees may be terminated without prior notice or disciplinary action. Management's recommendation to terminate an employee must be approved by the President of the Academy or designee.

Paid Suspension: When immediate action is necessary to protect the safety of the employee or others, and/or in the event that an investigation of an employee's actions or behavior is required, and the employee's continued presence in their position would not be in the Academy's best interests to protect the integrity of the investigation, the Academy may suspend the individual's employment until completion of the investigation, at which time additional disciplinary action may be taken. During such suspension, the employee will continue to be paid, but is not allowed to be present at the Academy or any Academy-sponsored or related events, nor perform any Academy work. Security shall collect the employee's keys, fob and identification badge if possible. If not possible, Security shall, minimally, revoke the employee's electronic fob access. Paid suspensions require the written approval of the President or President's designee.

- B. When an employee is notified of their discipline or of their dismissal, they may make a written request to meet with the Chief People, Equity, and Culture Officer or designee to review the decision. Such requests must be filed within ten (10) calendar days of receiving such notice. The meeting will be held as promptly as possible, but in no case will it be delayed more than fifteen (15) calendar days after receiving the written request. The employee will have the right to a Union Representative at such meeting and will have the right to present arguments and witnesses on their behalf. Recommendations to the President by the Chief People, Equity, and Culture Officer or designee, if any, shall be communicated to the Council President and the employee in writing.

ARTICLE IV

GRIEVANCE PROCEDURE

4.1 Definition

- A. A grievance is an alleged violation of any provision of this Agreement.
- B. All time limits consist of calendar days, except when a grievance is submitted less than ten (10) calendar days before the close of the current school term. At that time, limits will consist of all weekdays so that the matters may be resolved before the close of the school term or as soon thereafter as possible. Days for the purpose of the grievance procedure will mean teacher attendance days.

4.2 Every employee will have the right to present grievances in accordance with these procedures. Nothing contained in this article or elsewhere in the Agreement will be construed to prevent any individual employee from discussing a problem with the Administration and having it adjusted without intervention or representation by the Council. If the Council representative was not present at the adjustment of the complaint, the Administration shall inform the Council President of the adjustment.

4.3 Failure of any employee or the Council to act on a grievance within the prescribed time limits will act as a bar to further appeal and an administrator's failure to give a decision within the prescribed time limits will permit the grievant to proceed to the next step. The time limits, however, may be extended by written mutual consent.

4.4 Hearings and meetings held under this procedure will be conducted by mutual agreement at a time and place which will afford a fair and reasonable opportunity for all persons, including witnesses entitled to be present, to attend. When such hearings and meetings are during school hours, employees whose presence is required will be excused for that purpose, without loss of pay.

4.5 The Council agrees to take no reprisals against any persons because of their participation or refusal to participate in the grievance process. A grievance may be withdrawn at any level without reprisal against the grievant.

4.6 Procedure Steps

Step 1. The parties acknowledge that it is desirable for the employee and his/her/their immediate supervisor to resolve problems through free and informal communications.

Step 2. If such informal processes fail to satisfy the employee, a grievance may be filed. A grievance must be filed within ten (10) days of the occurrence of the event and/or when the Council and/or the aggrieved employee becomes aware or should have become aware of the event, which initiated the grievance but in no event more than thirty (30) days from the occurrence of the event. Failure to do so constitutes a waiver of the right to file a grievance for that particular occurrence. The employee will present the grievance in writing to the Principal, who will arrange for a meeting to take place within ten (10) days after receipt of the grievance. The Principal will provide a written answer of the grievance to the aggrieved employee and the Council within ten (10) days after the meeting.

Step 3. If the grievance is not resolved in Step #2, the aggrieved employee may appeal the grievance to the President of IMSA or designee within five (5) days after receipt of the Step #2 answer or five (5) calendar days after the Step #2 answer was due. The President of IMSA or will arrange for a meeting to take place within ten (10) school calendar days after receipt of the appeal. After the meeting, the President or designee will have ten (10) days to provide a written decision with reasons to the grievant and the Council.

Step 4. If the grievance is not resolved at Step 3, the grievance may be submitted by the Council to binding arbitration within fifteen (15) days after receipt of the President's decision at Step 3. The parties will attempt to agree upon an arbitrator within ten (10) days after receipt of the notice of referral to arbitration. In the event the parties are unable to agree upon an arbitrator within the ten (10) day period, the parties will request an arbitrator from the American Arbitration Association. The selection of the arbitrator will follow the voluntary labor arbitrator selection procedures set forth by the American Arbitration Association. The arbitrator will consider and decide only the specific issues raised in the written grievance and the replies thereto and will have no authority to make any decision or recommendation on any other issue not so raised. The arbitrator's decision will be based solely upon interpretation of the meaning or application of the specific terms of this Agreement in light of the facts presented. The fees of the arbitrator will be split between the Council and the Board. All other costs will be borne by the party incurring the cost unless otherwise mutually agreed.

4.7 Representation

The Council has the right to assist a grievant at any level of the grievance procedure if it obtains the consent of the grievant.

ARTICLE V

EVALUATION

Teacher Growth, Peer Feedback, Reflection, and Annual Evaluation

For 2021-2022 CADRE is the status quo ante that governs first and second year new teacher-induction, in a good faith effort the parties will implement the following:

5.1 Growth and Development

This proposal demonstrates the Academy's and the Council's joint commitment to both faculty and students.

We commit to the ongoing growth and development of IMSA faculty to achieve the mission of IMSA for every student. IMSA teachers guide students along a learning continuum and encourage student capacity to generate and use knowledge to advance the human condition. Supervisors and peers will provide ongoing, timely, and meaningful feedback to expand and to deepen each faculty member's professional practice.

We commit to the ongoing growth of IMSA as a forward-looking laboratory to support future capabilities of our students. Therefore, we will collaborate where appropriate to continue to create new and innovative conditions and practices for teaching.

5.2 Joint Committee

A joint committee of administrators and bargaining unit members will work together to implement and oversee a process (currently CADRE) that promotes the professional growth, inclusive of a formal evaluation system, of all teachers.

The focus of this joint committee will be to create and maintain a formal process whereby teachers reflect upon and analyze equitable instructional practices for students, provide peer feedback and guidance to improve teachers' culturally responsive practice, and develop professional growth plans that integrate individual and organizational goals.

This joint committee will be composed of no more than four bargaining unit members, including the union President, selected by the union and up to an equal number of administrators, including the President of IMSA or his designee, in his sole discretion, selected by the administration. The basis of professional relationships between the IMSA Council and administrators will be one of common courtesy and mutual respect at all times.

The meeting times may be held as follows by mutual consent; outside the school day; and during the school day when committee members do not have student responsibilities, if required, for the teachers on the committee.

5.3 Additional Committee Charges

- A. Using the CADRE document, as well as research based evaluative materials, tools, and resources to review and improve on the annual evaluation process.

- B. The committee shall develop a new evaluation tool to be piloted at the beginning of the 2023-2024 school year, with both committee members as well as new hires (those not on "continuing contract").

- C. The product of the committee work will be memorialized within the CBA through a Memorandum of Understanding.

ARTICLE VI

Working Conditions

6.1 Academic Freedom

The Board recognizes the opportunity for teachers to choose instructional materials and engage in appropriate intellectual discussion in the learning experience. However, that freedom carries with it responsibility that is determined by the basic ideals, goals, and components of the IMSA community as they are expressed in the mission, beliefs, goals and Equity and Excellence Policy of the Academy. Within those boundaries, teachers will create and maintain an atmosphere of open-mindedness and tolerance to discuss and express views concerning any issue, but will make certain that full and fair consideration is given to the subject, and that facts are carefully examined. The ultimate goal is to foster critical thinking and social justice.

6.2 Employee Work Year and Academic Calendar

A. The ten-month employee work year is currently 185 work days made up of 178 student attendance days and 7 additional work days. Should the number of student attendance days increase, the employee work year will increase by the same amount with an increase in pay proportionate to the employee's salary. Of the 7 additional work days, at least 2 days at the beginning of the academic calendar before student attendance days commence will be reserved for teacher planning directed by the Principals' Office. Management reserves the right to utilize student attendance days for other purposes (by way of example, and not limitation, Academy-Wide health and safety training).

B. One (1) day will be reserved in October for writing letters of recommendation for students. Teachers may work off campus on this day.

C. Attendance days missed for short term unscheduled closures of the Academy, for reasons such as, inclement weather or mass illness will not be made up.

D. Attendance days missed for extended unscheduled closures will be converted to distance learning days at Management's discretion.

E. An advisory committee consisting of representatives of the Administration and the Council and, at Administration's election, representatives of students, parents and other staff, will meet to provide input into the Administration's recommendation to the Board on the Academic Calendar.

6.3 Teacher Workload

The primary responsibilities of the teachers are the first legislative charge, which are those related to the academic program and individual needs of students, as well as to contribute to the second legislative charge by: providing professional development for external educators.

A. Student Support

All IMSA teachers are expected to engage in the holistic support and growth of IMSA's students, both inside and outside the context of individual courses. This includes, but is not limited to, the following:

1. Monitor student academic progress in a timely manner, by keeping track of student learning for purposes of making instructional decisions and providing feedback to students on their progress as dictated by the needs and progress of the students.
2. Respond to student and parent/guardian communication in a timely and professional manner. Timely for the purposes of this agreement will mean that teachers typically respond to communications within two workdays. If more research is necessary, a teacher will respond to the communication with an indication of when a response will be forthcoming.
3. Collaborate with the Principal's Office and support staff to identify needs of both individual students and the whole student body.
4. Collaborate with the Principal's Office and support staff to formulate and enact targeted interventions to provide equitable, individualized support to students.
5. Engage in Professional Learning Communities (PLCs) to determine barriers to and solutions for equitable support within disciplines.
6. Recognize and address student behavior and well-being in collaboration with the appropriate support staff.

B. Communication

1. Teachers will respond to communication, inquiries, and requests from the Principal's Office and academic support staff within two workdays and in a professional manner.
2. The Principal's Office will respond to communication, inquiries, and requests of the teachers within two workdays and in a professional manner.

C. Workload Balancing

One full time equivalent (1.0 FTE) teacher will be assigned four (4) class sections each semester and Titan Crew. Titan Crew will meet two (2) times per week.

1. The schedules and salaries of part-time teachers shall be proportional to the fraction of full time that they are employed.
2. An assignment of more than four (4) classes and Titan Crew in any semester is an overload and will be compensated at 20% of the teacher's salary prorated for the time of coverage.

Teachers will have priority for overload teaching assignments for which they are qualified; provided that nothing prevents administration from determining that an overload assignment will be taught by a qualified temporary instructor instead. All qualified teachers will be notified of the possibility of an overload assignment and will be able to express their interest, with the Principal making the final decision. Unless otherwise agreed to by the teacher and the Principal, overload assignments will be limited to one (1) section per semester.

3. Any teacher who feels that their teaching load is above the set standards in this agreement may file a written request for an evaluation of the situation with the Principal. The written request will include the teacher's reasons for believing the load is excessive. If necessary, the Principal or designees may meet with the teacher to gather additional information. This meeting will take place within five days of receipt of the written request for evaluation of the teaching load. The Principal or designees will provide a written response within five days of the meeting, or if no meeting occurs, then within five days of the written request for an evaluation. The teacher may appeal the written finding to the President within five days after receipt of the written evaluation. The President or President's designee outside the Principal's Office will meet with the teacher, a member of the Council, and Principal within seven days, or as soon as practicable thereafter, so that the teacher can contribute evidence of the excessive load. The final decision of the appeal will be provided in writing to the teacher and the Principal, with a copy to the Council, within seven days of such meeting.
4. The standard operating hours of the Academy are from 8:00am to 4:30pm. Teachers are expected to generally be available for classes and meetings during these work hours.
5. A teacher's workweek includes scheduled time: instructional time, office hours, study sessions, academic staffing meetings, faculty, department, common course, committee meetings and interviews for open positions. In addition, the workweek includes, but is not limited to: planning and preparation for classes, documenting, evaluating and grading student work, preparation of grade reports, professional development activities, communication with parents, meetings with colleagues, and writing recommendations. Teachers may allocate their unscheduled time to accomplish these and other tasks necessary for them to perform their job properly. Teachers are expected to be on-campus at least thirty (30) hours during the regular workweek, including a minimum of five (5) hours taking place on I-Days between the hours of 8:00am and 4:30pm and other days/times between 8:00 and 4:30pm as requested by management or Academy needs.
6. Classes will generally be scheduled Monday through Friday between the hours of 8:00am and 4:30pm, however, management reserves the right to schedule courses at times that fall outside this parameter, to be taught by temporary instructors.

7. Teacher responsibilities on Inquiry Days (I-Days) may include teacher, department, and common course meetings, Independent Study and Student Inquiry and Research (SIR), meetings with students, meetings with staff, office hours, study sessions, advocate meetings, and preparation of material for classes including science labs.
8. Teachers will maintain two (2) in-person office hours per week plus other times as requested or needed by students during the workday when the teacher is available in order to support their academic needs. Teachers will be reasonably available in person if requested by the student.
9. The Principal will schedule no more than two (2) faculty meetings per month of a duration not longer than one (1) hour and the Principal or designee will schedule no more than two (2) interdisciplinary/collaborative/discipline team meetings per month of a duration not longer than one (1) hour unless agreed upon by the teachers in the discipline. Meetings will be scheduled with at least 48 hours notice, except in emergency situations, in order for staff to plan appropriately.
10. Teachers are expected to attend academic staffing meetings. If unable to attend due to either an excused absence approved in advance by the Principal's Office or a scheduled class conflict the teacher will provide a written update of the student's progress to the organizer of the meeting.
11. Teachers will have four (4) grading days per year as reflected on the academic calendar where teachers may work off campus to finish quarter or semester grades. The first and third quarter grading days will be scheduled on the I-day before grades are due (those teaching SIR classes may choose another time) and the second and fourth quarter grading day will be chosen by the teacher during finals week after the teacher has completed all student contact responsibilities. Grades will be due no sooner than 10 calendar days after the end of the marking period.
12. Teachers are expected to work Parent Day on a weekend during the Fall and Spring semester. Teachers are expected to attend Graduation.
13. During Intersession week, teachers will offer or sponsor at least one part-time Intersession course or engage in work approved by the Principal's Office focused on Academy priorities.
14. Teachers in their first year will have five additional days for orientation which will be included in their annual salary and not in addition.
15. If the Administration requests a teacher's presence before or after the academic year as established by the academic calendar and the teacher agrees, the teacher shall be paid an hourly rate of \$40/hr.

16. Student contact time is determined by the nature of the position and varying instructional needs of the departments. Representatives of the Council and the Administration will work together to come to an agreement if there is a proposed change in student contact time.

6.4 Teacher Assignment Procedure

A. The Principal's Office will inform the teachers of the proposed course section numbers and staffing projections for the following year by the end of the third quarter and will work with disciplines to determine teacher schedules for the following year. Proposed schedules for the following year will be provided to teachers prior to the end of the school year. Scheduling changes may happen over the summer in which case the Principal's Office will consult with the teacher regarding necessary changes as soon as reasonably practicable.

B. Generally, teachers will not be assigned to teach both the first and last classes of the day and an effort will be made to assign the teacher a balanced day to day workload. Typically, teachers have two (2) lesson preparations per semester. Teachers will not be assigned more than three (3) lesson preparations per semester. The Principal may make exceptions after consulting with the teacher if the specific subject matter and staffing require it.

C. A teacher may request reconsideration of all or a part of the assignment by submitting a written request for reconsideration to the Principal within five (5) days after receipt of the written assignment notification. The request shall identify those parts of the assignment to be reconsidered and the reasons in support. The Principal, after taking into account the reasons advanced by the teacher, will notify the teacher in writing of the assignment within five (5) days of the request for reconsideration. The assignment will then be final and not subject to further review except by agreement between the Principal and the teacher. In the event of a change in assignment after the start of the academic year, the teacher will be given as much advance notice as is feasible, and the reconsideration and review procedure will be accordingly expedited.

6.5 Class Size

Class size at the Academy will be at a maximum twenty-nine (29) students. In a limited number of situations, an individual student's schedule may necessitate more than twenty-nine (29) students in a class. Specific courses may have lower class size limits. The Principal or designee (e.g. College and Academic Counselor) will communicate with the teacher and the Council before exceeding the class size limit. Every effort will be made to balance class sizes across sections of the same course.

6.6 Room Assignments, Set Up, and Space Use

When feasible, teachers will be given 30 days' notice and assistance to move classroom materials due to remodeling or a change in room assignment. Over the summer, if the classroom materials are not moved within the 30 days, Management will make arrangements for them to be moved.

6.7 Additional Assignments

A. Employees who are assigned additional responsibilities (i.e. SIR class, discipline team leadership positions, etc.) shall have the additional responsibilities and the stipend and/or assignment time (given as a fraction of 1.0 FTE) for such responsibilities stated separately on a professional assignment form and given to the teacher before the end of the school year if possible. (See Appendix A for a list of additional assignments.)

B. The Council and Management agree that collaboration is important for the advancement of the Academy's mission. Management will share with the Council a draft of the final position descriptions that are part of the collective bargaining agreement.

C. All teacher leadership positions will include a selection/deselection process determined by Management with input from the Council.

6.8 Professional Development

A. The Board joins with the Council in a commitment to the importance of professional development. The Administration will offer ongoing professional development on a mandatory and voluntary basis as appropriate based on curricular, instructional, assessment and programmatic needs which stimulates, encourages and enables a teacher to improve their performance, reach their full potential, and increase their culturally responsive pedagogy.

B. Employees will receive additional compensation for scheduled professional development work outside of the academic calendar.

C. Additionally, teachers may request to attend outside professional development and may request funding to defray the costs of specific, professional development activities, including, but not limited to, attending and/or presenting at professional conferences. In considering requests for professional development funding, Administration will take into account the educational needs of the teacher, as well as the budget and overall goals and needs of the Academy.

6.9 Health and Safety

A. The Illinois Mathematics and Science Academy, utilizing resources available to it and the State of Illinois, and in keeping with both recognized safety and occupational health standards and standards designated for schools, shall make provisions for the safety and health of its employees during their hours of employment.

B. A standing Health and Safety Advisory Committee with equal numbers of administrators and Council members, as well as RC Council Members and at management's discretion, additional staff representing other areas of the Academy, will meet at least quarterly based on a 12-month calendar. Its responsibilities will be: 1.) To articulate and publicize procedures for reporting health

and safety concerns; 2.) To promptly address any Health and Safety concerns which are relevant for the Committee that arise, and recommend an adequate timeline for the inspection and, if necessary, the resolution of the reported concern; 3.) To organize health and safety training for employees; and 4.) Plan for the return to campus after distance learning during emergencies, addressing concerns related to health and safety. 5.) Plus, additional responsibilities as needed.

Proof of the birth, adoption or foster placement is required to receive paid parental leave. Additional documentation of proof of eligibility may be requested by Human Resources.
4. Paid parental leave is administered in conjunction with and will run concurrently with the Family and Medical Leave of Absence Policy (Policy GBVD) ("FMLA"). Holidays falling within the sabbatical leave period will not be carried forward and do not extend the sabbatical. However, employees may, if approved, extend the sabbatical leave period with accrued vacation/personal leave time.
6. Unless specifically directed to do so or contacted by a Cabinet level Academy leadership about an emergency Academy-related matter, employees shall not be participating in any work-related activities during a sabbatical leave.
7. When an employee returns from a sabbatical leave, the Academy will return the employee to the employee's same position held before the sabbatical leave or to a similar position that is equivalent in terms of compensation, benefits and hours.

8. A sabbatical leave will not be denied solely because of Academy budget and/or other resource constraints. Notwithstanding anything contained herein, nothing in this policy creates any right or guarantee that a sabbatical request will be approved.

9.6 Unpaid Leave of Absence

1. Requests for unpaid leave of absence must be submitted in writing with explanatory details, to the immediate supervisor and to Human Resources. Each case will be considered independently, and approval will be determined based upon the reason for the leave and the needs of the Academy. Final written approval must be received from the Human Resources Department.
2. Unpaid leaves of absence may be requested for up to one (1) academic year if agreed to by the employee and the Human Resources Department.
3. Employees may request a full or partial (e.g., temporary move from full time to part time status) leave.
4. If approved, the terms of the leave will be documented in an agreement between the employee and the Academy, including terms of reinstatement to prior position and FTE.
5. For full leave, neither paid leave benefits nor service credit will continue to accrue during the unpaid leave of absence. Eligibility for other employer-provided benefits (e.g. medical insurance, dental insurance) will be affected as well, based upon the duration of the leave and conditions will be included within the agreement.
6. For partial leave, paid leave benefits and service credit will continue to accrue at a pro-rated FTE Eligibility and costs for other employer-provided benefits (e.g. medical insurance, dental insurance) will be affected.
7. Failure to comply with the terms of the leave will nullify the agreement. Failure to return to work on the designated date will be considered a voluntary resignation.

9.7 Day of Giving

Employees are eligible to take one (1) paid day of giving each academic year in order to volunteer their time to give back to the community.

9.8 Other Leave Policies

IMSA Council

This Memorandum of Understanding (“MOU”) clarifies the Illinois Educational Labor Relations Board’s (“IELRB”) October 07, 2020, Order, which defined the bargaining unit.

CERTIFIED UNIT

Included:

All persons employed full-time and part-time by Illinois Mathematics and Science Academy in the following job titles or classifications: Teacher; Lab Manager; Instructional Program Assistant; College and Academic Counselor; Academic Support Specialist; Learning Strategies Coordinator; Librarian.

Excluded: All other persons employed by Illinois Mathematics and Science Academy.

Purpose

The purpose of this MOU is to clarify the parties understanding of the inclusion of the position of Coordinator of College and Academic Counselors and avoid any future confusion regarding the composition of the bargaining unit.

Duration

It is the understanding of the Council and the Academy that for the duration of the employment of the current Coordinator of College and Academic (Julia Husen) this position will be “grandpersoned” and incorporated within the bargaining unit.

The parties have a shared understanding that “supervisory” duties for other members of the bargaining unit that previously had been an expectation for this position will become the responsibility of administration. Additionally, any and all “coordination” duties will continue to be an expectation of this position, as per the job posting (Exhibit A).

The Parties to this MOU agree, without objection, that once this position has been vacated the position will not be within the bargaining unit.
